GLOBAL HS

SIMPLIFYING HARMONIZED SCHEDULE CLASSIFICATION FOR THE WORLD

Global HS is an innovative online tool designed to streamline the Harmonized Schedules (HS) classification process for international trade professionals — making it simpler, faster and more accurate.

Why wade through long lists of irrelevant "potential matches" when Global HS can:

- Interpret goods descriptions expressed in everyday commercial language
- Deliver a single, correct HS code and duty rate
- Deliver Harmonized Schedule and duty rate information for 170+ countries
- Save search details and classification rationale as a customs-ready audit trail automatically
- Compare duty rates in multiple countries and view preferential duty rates, ADD/CVD info, VAT, excise and other national tax rates, using the Create-a-Chart tool

(CONTINUED ON REVERSE)

SPECIAL FEATURES:

- Classify imported products more efficiently with an intuitive search that delivers accurate classifications
- Save time and ensure accuracy with an interactive process that addresses missing product details
- Take advantage of intelligent search logic that recognizes eponymous trade names, CAS numbers and common acronyms
- Easily compare duty rates, ADD/CVD info, VAT, excise, and other national tax rates
- Be confident with transaction details and classification rationale saved for a customs-ready audit trail
